## **STUDENTS' FEEDBACK ANALYSIS & ACTION TAKEN REPORT ON CURRICULUM (2023-24)**

---

**INTERNAL QUALITY ASSURANCE CELL**

**MIER COLLEGE OF EDUCATION**  
**(AUTONOMOUS)**  
**ACCREDITED BY THE NAAC WITH 'A+' GRADE**

**INTRODUCTION:** The Internal Quality Assurance Cell (IQAC) is a vital part of the institution's quality assurance system and has been continuously working towards ensuring quality enhancement and sustenance. Collection and analysis of feedback from all the students on quality-related institutional processes helps to ensure the creation and enhancement of quality culture. It also provides valuable insights and guides us to serve our students and to improve the educational experience for our current and future students. This report focuses on the analysis of the feedback of students on the curriculum.

**DATA COLLECTION AND ANALYSIS:** An effort was made to receive feedback from the students of the college. For this purpose, an online feedback form was created and shared with the students of SOE, batch 2022-24 through Performance Insight-360 (PI-360), Quality Analytics Framework. To arrive at comprehensive results, percentages have been calculated. For the effective presentation of the data tables graphs have been used. Questions were based on a Likert scale which was rated as 1: Strongly Agree 2: Agree 3: Neutral 4: Disagree 5: Strongly Disagree

**A. The question-wise analysis of the feedback is given below:**

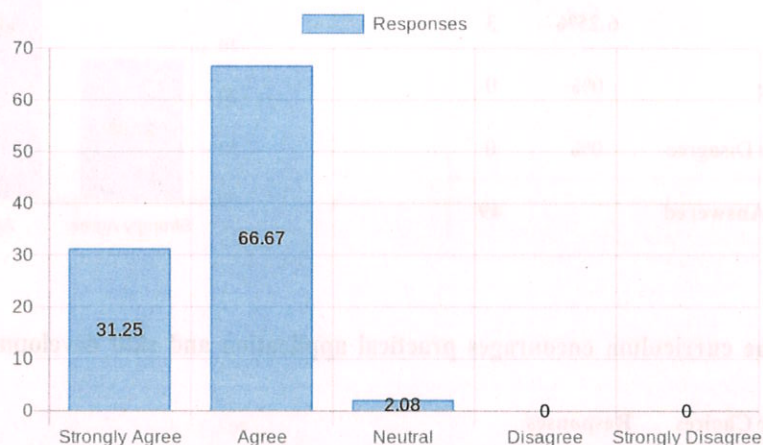

**Programme- B.Ed.**

**Responses received- 49**

**SECTION A - QUESTIONS BASED ON LIKERT SCALE**

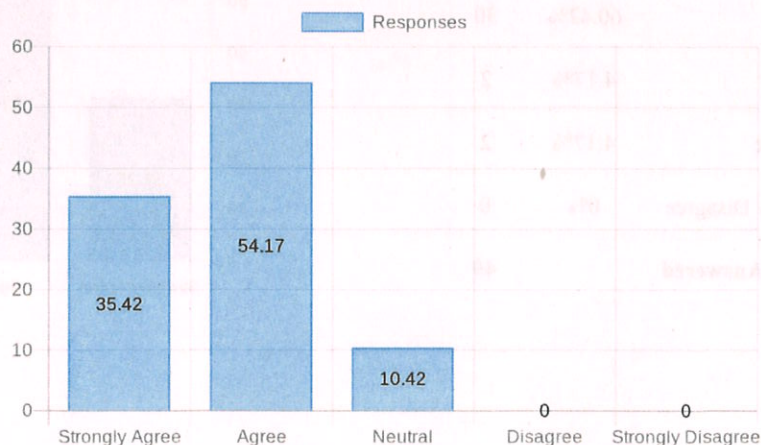

**1. The programme learning outcomes and course learning outcomes of the curriculum are well-defined.**

Answer Choices	Responses	
Strongly Agree	31.25%	15

Answer Choices	Responses	
Strongly Agree	29.17%	14
Agree	62.5%	31
Neutral	8.33%	4
Disagree	0%	0
Strongly Disagree	0%	0
<b>Answered</b>		<b>49</b>

**Descriptive Feedback**

Overall, 91.84% of the students are satisfied with the curriculum and its delivery. Majority of the students (97.96%) agree that the programme and course learning outcomes are well-defined. A combined total of 89.79% of students find the curriculum topics relevant and interesting, indicating strong engagement. The small neutral percentage (10.20%) reflects scope for further alignment with student interests. The responses received from the students highlighted that overall, the curriculum is good and enriches the inherent talent of the students and helps them to achieve their aims. With the help of the curriculum, students have attained interesting learning experiences.

**Major Observations/Suggestions given by students:**

1. The balance of theoretical and practical components throughout the semesters needs adjustment, as the first year seems overly theoretical while the second-year leans too heavily on practical aspects.
2. Given the emphasis on teaching practice, the curriculum should prioritize practical learning experiences over excessive theoretical content.
3. There's a desire for more enriching experiences, including field trips and educational outings, to broaden knowledge and skills.
4. Incorporating more hands-on activities into the curriculum would enhance engagement and learning outcomes.
5. Rather than traditional written sessional work, students suggest alternative assessments like creative projects to better showcase their abilities.
6. At times, the convergence of examinations and internship tasks poses challenges for students, suggesting a need for a more streamlined curriculum.

### Descriptive Feedback

90% of the students are satisfied with the curriculum and its delivery. 100% of the students feel supported by the teaching methods used, indicating effective instructional strategies. While 85% agree that the curriculum addresses different learning styles, 15% are neutral or disagree, suggesting that diverse instructional approaches should be adopted. The responses received from the students highlighted that overall, the curriculum has been designed according to the needs and interests of the students.

### Major Observations/Suggestions given by students:

1. More opportunities should be provided for hands-on learning.
2. Field experiences in special education classrooms, practicums with students with intellectual disabilities, and opportunities to participate in research projects should be increased both in number and frequency.

### **Descriptive Feedback**

90.91% of students expressed satisfaction with the curriculum and its delivery, indicating strong overall approval. However, there is scope for improving instructional design, teaching methods, and assessment strategies to better accommodate diverse learning styles.

### **Major Observations/Suggestions given by students:**

1. To further enrich the program, offering exposure to industry/academia experts could be valuable alongside the already qualified faculty with extensive experience within the relevant field.

### **Follow-Up Action:**

The analysis shall be submitted to the Principal. A meeting shall be convened by the Principal to discuss the feedback and an action taken report of the feedback shall be prepared.

### Students Feedback on Curriculum

2023-24

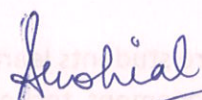

### Action Taken Report

The principal met with the HoD of SOE, the deputy HoD SOE, the COE, and the IQAC team to discuss the significant observations of the feedback and the suggestions the students gave. The following action taken report has been prepared based on the decisions taken in the meeting:

S.No.	Observation/Suggestion	Action Taken
1.	The balance of theoretical and practical components needs adjustment.	The curriculum shall be reviewed and revised to ensure a balanced distribution of theoretical and practical components across both years.  The academic committee shall review the number of practical learning sessions and reduce redundant theoretical content. More case studies and real-life scenarios shall be included to supplement the theoretical classes. After review, the proposed changes shall be approved in the next Board of Studies meeting.
2.	Prioritize practical learning experiences over excessive theoretical content.	
3.	More enriching academic experiences need to be provided, including field trips, practicums, working with students with intellectual disabilities and educational outings.	Regular field trips and educational outings will be scheduled each semester to provide students with broader learning experiences. For this purpose, more collaborations shall be forged with local schools and academic institutions.  Practical workshops where students learn and practice behaviour management techniques specific to students with intellectual disabilities shall also be organized.

		Students shall receive training on various assistive technologies to support students with intellectual disabilities, such as communication devices, adaptive software, and sensory tools.
4.	Incorporate more hands-on activities into the curriculum.	The curriculum includes various hands-on activities, such as workshops on lesson planning, micro-teaching, and classroom simulations. Additionally, classroom management drills, curriculum development projects, etc., shall be included to enhance the engagement and learning outcomes of the students.
5.	Alternative assessments like creative projects instead of traditional written sessional work need to be introduced.	Various assessment methods, including creative projects, presentations, and group work, have been introduced, allowing students to showcase their abilities in diverse ways.
6.	Streamline curriculum to avoid clashes between examinations and internship tasks.	The academic calendar for the next academic session shall be restructured to separate examination periods and internship tasks, ensuring students can focus adequately on both without overlap.
7.	The special education programmes should be further enriched, offering exposure to industry/academia experts.	<p>Regular guest lectures by industry professionals and academic experts shall be scheduled. Experts on specialized topics such as inclusive education, educational technology, curriculum development, and classroom management shall conduct hands-on workshops and seminars.</p> <p>Panel discussions featuring a mix of faculty, industry experts, and alumni shall be organized to create platforms for knowledge exchange, networking, and professional development.</p>
